Testimonials

"Working with Syama on our conference created a new lens for the audience to look through and more than that, envision themselves. Her insights and advice not only resonated with our attendees, it made them think bigger. As the closing speaker, she elevated the discussion itself, but also weaved together the topics we had discussed throughout the day. Syama also set the tone in how she spoke – light but focused, fun but serious and a "jane of all trades" in that she can not only speak on so many topics, she can connect with the audience and their questions as well. It's like we're in her living room, ready to tackle the tough conversations but in a welcoming and open way. Can't wait to have her back at one of our future Summits!"

Cate Luzio, Founder and CEO, Luminary

"Assembly was incredibly lucky to secure Syama as a speaker for our "Money Mavens" panel at SXSW, which explored the future of finance for women. She exceeded all expectations – not just with her vast depth of knowledge, but with her ability to tell compelling stories, share valuable insights in a digestible manner, and authentically connect with our audience. She was a pleasure to work with from beginning to end, and we wholeheartedly hope to work with Syama in the future."

Jess Santini, Assembly Global
